

SUPPLEMENT TO CESSNA MODEL 170, 170A OR 170B LANDPLANE
OR SKIPLANE CAA APPROVED AIRPLANE FLIGHT MANUAL

This supplement must be attached to the Airplane Flight Manual when the Sensenich Model M74DR propeller is installed.

Installation of the M74DR propeller is CAA approved for use with Continental engines C-145-2, C-145-2H and 0-300-A. Information contained herein supplements the information contained in the basic manual.

PROPELLER - Sensenich Model M74DR. Static RPM at maximum permissible throttle setting not more than 2320, not less than 2220. Diameter not more than 74 inches, not less than 72 inches.

"Performance of the airplane with the Sensenich Model M74DR Propeller is equal to or better than the performance with a fixed pitch wood propeller."
