69" to 76"  
Diameter

3 Blade  
69" to 76"  
Diameter

All J Series propellers feature our new Bolt Thru hub design with the option of our unique propeller Locking System to keep your airboat investment safe.

The 72 & 76JW Series of blades are an ultra wide blade for 6 cylinder engines. They are the ultimate 6 cylinder hunt prop. Designed using completely new airfoil technology, these propellers have the optimum thickness ratio to assure you a high performance propeller.

Designed primarily for 6 cylinder direct drive engines, the JW Series has the most push of any 6 cylinder propeller available today. Coupled with our new V Hub system, this propeller is a breeze to install and adjust pitch.
